OUR GUEST'S OPINION...

The views here are breathtaking! A great little find, with good hospitality. We had probably the best baked fish with salad we have ever eaten. Someone knows how to cook! Plus, a packed breakfast provided for departure day.

Mr Alker

WHAT WE LOVE

- The owner, Lindorfo, and his staff are extremely friendly; it often feels like you're visiting friends in a rural retreat.
- The views from the hotel are quite simply stunning. Lush green mountains, birds soaring, farming immersed into the hillsides and simple local life define the surroundings.

GOOD TO KNOW

- This hotel is a simple, family-run hotel that is ideally suited to customers who really want to explore the interior of Santiago by foot. It's possible to walk directly from Quinta da Montanha to the top of Pico da Antónia, standing 1,394m high, via a hike of about six hours.

A small, family-run hotel which is blessed by a collection of fantastic views, defined by the breathtaking surrounding scenery of mountains and verdant green landscapes; Quinta da Montanha promises a peaceful retreat. The hotel is also recognised as an excellent base for walkers, as well as a great addition to an island-hopping itinerary, while its restaurant serves delicious traditional dishes that source home-grown ingredients.

Built on the sloping hillside of inland Santiago, 24km from the capital Praia, this is a hotel that encapsulates tranquillity on one hand, and adventure on the other. Combine relaxing on the recently improved rooftop terrace and soaking up the vistas with getting out and about on the walking trails from the hotel. There are many excellent walking tours you

can enjoy from Quinta da Montanha, allowing you to soak up the stunning scenery that inland Santiago showcases.
