Maisons Bervily

Set in large mature gardens right in the heart of Calvi town, the résidence Bervily consists of six attractive terraced houses and two apartments that are ideal for a family holiday.

Simple in design but with some lovely features, these properties are well maintained and kept to a comfortable standard by the owners who live on site. The gardens are well kept with an abundance of palm trees and Mediterranean plants providing shady areas for children to play, and there are plenty of sunloungers around the large pool area. Each property is equipped with air-conditioning and has its own private terrace suited to al fresco dining. The maisons are clustered near the pool area, each adjoining the large lawned gardens, and therefore suit parents

wishing to keep an eye on the children whilst still being able to relax. For those seeking a bit more privacy, the two ground floor apartments are positioned slightly further away from the pool – they also have a modern feel and a large enclosed terrace.

Ideally situated in Calvi, it takes approximately 10 minutes on foot down a quiet path to reach shops, restaurants and a gently shelving sandy beach. Maisons Bervily and Apartments Bervily are a popular choice with our guests year after year.
